My ancestor, James NOLAN, was in Troy between 1860 & 1875. He married there and 3 of his 12 children were born there. He left for California shortly after taking the Naturalization Oath at the courthouse. (I have yet to check the State 1875 Census for his location - somewhere in a boarding house I am assuming)

I would appreciate your adding the NOLAN surname to your listing. My website is below my name.

This is a copy of a previous message from September 2004. There are two more I will send along. Please forgive the typos. The original was written after the nine hour drive home from Albany. The numbers in front of the names are the burial numbers and then the location in the plot.

A few days ago I went to Oakwood Cemetery in Troy, New York tom look for Mary McCabe Trulan's grave. I hoped it would provide a clue to her place of birth in Ireland as many memorials do. I was disappointed but did find the following information. There are three Trulan plots purchased over an eight month period. Many of the stones have fallen over and were unreadable. I did get a list of the interments in each plot and cleaned off Robert and Mary's fallen stone. There are three plots but I will send them one at a time over the next several days.

The format of the information is: The buyer's name, residence (which is not on all of the entries), Section, lot, date purchased, amount paid (appears in some), size, burial number; grave number, age. The date of burial is not given.

Robert Trulan, Lansingburgh, D, 214, 4-27-1877,,256 sq.ft.

1772, 1, Chas Herbert s[on]., Robert Trulan, 11,I think this was Jane Trulan and Michael Rafferty's child. Robert's son Charles died in 1864 at age 9.

8920, 4, Robert, s. do 2mos

13137,5, Joseph A., s. do 3(Plus a superscript I can't read. Perhaps a 2 or 3)

15262, 6, Jennie A, w[ife]., do 44, This is Jane Trulan born in 1852

Gloria,

I hope if you are in the area at the time of our local TIGS meeting, you will consider attending. It's Thurs. May 18 @ 6:30 pm at Holmes & Watson, Broadway, Troy. A meeting notice is posted on the list & the website. I will check my Green Island records for your Mulready & Ogden. Did I miss any Green Island surnames?

Donna the other name is Chevalier

i think they all lived on High St. according to the census records.

I also think they attended St. Joseph's church, my mother & uncle were baptized there May 22, 1920 thanks for looking/

If I stay in Troy I will try to get to the TIGS meeting.

Hi, I joined the TIGS mailing list last year, but haven't posted family details as of yet. Our history is very sketchy at best.

I am also researching Nolan, but don't yet see a connection to John's family. My history doesn't go back far enough. On the 1900 federal census, I find my great grandfather Andrew Nolan, head of house, birth being listed at sea. Both parents born in Ireland. Since he was 39 on that census, I estimate his birth to be about 1861. My grandfather and siblings, born in Troy were Charles, Agnes, Clarence, Joseph, James, Frederick, George, and William (born 1887 and later). Andrew was married to Mary ?.

I still have two living Nolans in the area but they have no knowledge of their father's family history.

In 1978 I obtained a copy of my grandparents divorce papers from 1929.
I don't know if this will help for 1913. The return address on the envelope is Rensselaer
County Clerk's office, Edward A. Vielkind, county clerk, Court House, Troy, NY 12180 The
heading on the paper says it was a special term of the supreme court held in chambers at the
court house, city of Troy.

Hi Rita,

Thanks for the memories. If that "Half and Half" you mentioned was a ham and swiss on rye, I made many a trip on the bus from Cohoes to get one. I probably never knew the name of the deli, but it was where the bus turned to start it's return to Cohoes. That was in the mid to late 1940's

Categories: GENEALOGY TIGS

Hi TIGS

Why Troy? Apparently James Connolly had a cousin in Troy by the name of Mrs. Hemmes, Hunn, Humm. Something like that. My great grandfathers brothers handwriting was not great. It will be possible to determine from the city directory as an address was also given. 447 10th St. Maybe somebody could figure out the cousins maiden name through a marriage record?.

And from the copied letter written by my great grandfathers brother wrote in 1902 that I recieved from the present national secretary of the SLP, he (James Connolly) was not a very pleasant fellow while on a weekend speaking engagement in Troy in 1902. He lived there in 1904-5. Anyone who wants to read the letter send me a note and I will forward.

Categories: GENEALOGY TIGS

Hello,

A few months ago I joined your discussion group because my grandparents were from Troy, even though I did not think I had Irish ancestors. Now I think I may have found one, so perhaps there is someone out there with more clues.

Charlotte, whose last name I think was Cookingham, became the second wife of Israel Striker (1787-1863) in the early 1850s. There is conflicting evidence as to Charlotte's birth date (1816, 1828) and as to the birthplace of her mother (NY and Ireland).

To give you researchers more clues and perhaps find something that rings a bell, I will add that Charlotte and Israel had two children together, Mary and Anna (1857-1915). Anna married Murray Paul Campbell.

I now think that in the picture that is presently on the website, in the front row, are Mabel Campbell Jordan (daughter of Murray Paul Campbell), Murray Paul Campbell, Anna Striker Campbell (his wife), their two other daughters, Matilda and Charlotte, and two of their three sons, Paul and/or Striker and/or Clarkson.

Every time I have sent a message to this group, I have received wonderful replies. I hope I will again be so lucky!

Thanks in advance.

Nancy

Many members of the TIGS -Troy Irish Genealogy Society mailing list and the Rensselaer County mailing list have an interest in Troy's Burden Iron Co. and the museum which is housed in the former office building as many of their ancestors worked in that establishment.

A recent RPI press release on restoring the missing letters from the facade of the Burden Office building should be of interest to these members. The release can be found by clicking on the following:

Rensselaer Students Help Give Local Landmark a High-Tech Facelift Rensselaer Polytechnic Institute - Troy,NY,USA Troy, NY – A symbol of the Capital Region's 19th-century industrial heritage is getting a facelift, courtesy of a decidedly 21st-century technology. ...

Also, some TIGS members toured the Burden Museum on May 22, 2003 and a description of that tour along with photographs is on the TIGS website. Address for the TIGS website is:

Well, even though we are running unopposed, maybe those running should post a short bio? So the other-than-local members know who we are...

I am running for President for the second time. I was honored to serve as the first President of TIGS. I am also one of the founding members, having been at the very first TIGS gathering in September 2003. In addition to TIGS, I am also a member of the Westchester Co. Genealogy Society, and a past member of the Renss. Co. Historical Society, Berkshire Historical Society, and others.

My local area of interest is Green Island, where my lines go back at least to the mid-1800's - BUTLER, DRISCOLL and DEVLIN, which also extend into Cohoes and Watervliet. My Troy (German) line is STEINWAY and FLECK (DIETZ).

I also have lines in VERMONT: (Addison County) KNIGHT and DOANE; and a line in ISLAND POND (GLEESON). My lines in WESTCHESTER CO. NY, go back to the 1600's at least, & include many of the founding fathers of that county, such as John ARCHER (first Lord of Fordham Manor, and Sheriff of NYC), CONKLIN, BROWN, ODELL, DUSENBURY, CRONK, HUNT, ROBERTSON, etc., and many Revolutionary soldiers--two of my ancestors (VAN WART & WILLIAMS) helped to capture Major John Andre, the British spy who was carrying the plans for West Point for Benedict Arnold to sell out to the British. And of course, IRELAND lines: Longford Co. (MC CABE), Donegal (DONOHOE), Westmeath (BRADY), Meath (MALONE) and Monaghan Co. (LAMB).

I have worked on most of the TIGS transcription projects, and other ones, including the ACGS. I volunteer on some of the lists and websites for look-ups.

If elected, my focus will be on expanding our genealogy projects, membership, resources, speakers and tours, while having FUN as a group and helping each other to trace our lineage. Next year, I would like to see our group march together in the Albany St. Paddy's Day parade. A more ambitious idea would be a group trip to Ireland.

Others on the slate, could you please post a brief bio?

Thanks,
Donna

Categories: GENEALOGY TIGS

Throughout the winter I have been giving walking tours of Saratoga. The six tours were of: North Broadway; central Broadway and Franklin Square; Union Ave; Spring Street Circular Street; and Caroline Street. The tours have been free and open to anyone who was interested with attendance of up to 40 people.

On each tour I discuss one (occasionally more) family that lived in each house built before 1920. I talk about how the family made their money and their connection to Saratoga.

Naturally, I lean toward the most interesting story

I can find. On the Mansion Tour there is the summer home of a Saint (Yes!

Really) and many sinners (was there any doubt).

On Sunday May 7th at 3:00 there will be tour called "How they rest: Where they lived." This is a tour of Greenridge Cemetery. We will meet near the main building near the entrance.

On this walk we will look at the markers of those whose houses were passed on the various walks. Pictures of the family's house in Saratoga will accompany each stop. This tour has never been done before but is estimated to take at least 90 minutes, and to be about a mile in length.

The reason for the tours is that I am writing a series of books that cover the families that lived in the same houses. By committing to giving the tours it made me get my research done!

If you have any questions feel free to call me at 495-7011.

I was a founding member of TIGS and currently a member of the Ladies Ancient Order of Hibernians, the Rensselaer County Historical Society and the American Canadian Genealogy Society.

I have worked on the following TIGS projects:

- Burden Payroll Records
- Burden Death Notices
- Rensselaer County Marriage Index (in progress)
- 1902 Troy City Directory Deaths

I have also worked with Pat Connors in transcribing the 1900 U.S. census for Troy and am currently assisting with transcribing the 1875 NYS census for Troy. I am also working with the American Canadian Genealogy Society by copying, data entering and proofreading vital records from several local Catholic Churches.

I am researching the Gallagher and O'Meara surnames in Troy NY, McCarthy in New Jersey and Massachusetts, McGrath in Connecticut and New Jersey and Brearton and Wafer in Green Island and Troy NY.

I have enjoyed being in the company of other individuals who share my interest in local genealogy and are willing to help others who are also researching their families.

Director, Susan Holland, who was quite interested in our organization from the standpoint of collaboration and sharing of information. Of particular interest are their efforts on the restoration of St. Joseph's Church, Albany (Architect Patrick Keely). They are also concentrating on the preservation of Trinity Church, the Wellington Row State Street area, Church of the Holy Innocents, Albany Knitting Co., etc. etc.

They have several upcoming events, including St. Joseph's open houses on Sundays: 6/11, 7/9, 8/13, 9/10, from 1-3 pm.; Hidden City House & Garden Tour Thur. 6/15. Perhaps a little late to announce is the Albany History Fair which is today 5/7 from noon till 4 at Quackenbush Square, at the Visitor's Center.

This is my great grandfather who was baptised in the Tipperary RC Parish, County Tipperary.

James Connors, 82, for about 65 years a resident of the southern section of this city, died Saturday after a short illness. He was born in Ireland, but had come to this country as a youth. He was a resident of St. Michel's parish in the southern section for a number of years and was an attendant at St. Michael's Church. He is survived by a daughter, Mrs. S.A. Young of Princeton, N.J., and two sons, James T. Jr., and John F. Connors and a sister, Mrs. C. Keirnan of Albany. The funeral will be held from the home of John J. O'Neill, 43 Stowe Avenue, tomorrow morning at 9 o'clock, and later from St. Michael's Church where a requiem high mass will be sung. Friends may call at the home from 7 to 10 o'clock tonight. Burial will be in St. Joseph's Cemetery.

Is this part of the system of centers that I thought had government support? I visited the center for South Mayo and can attest to their bona fides! I found researchers with computer files who responded to my request within 30 minutes. I believe I paid 40€ for a list of my grandmother's Armstrong family's baptismal dates and her parents marriage info. Priceless!

Hi, Mike,

I dealt with the Mallow Heritage Center quite a few years ago and was very pleased with them. Having very little to go on, they sent me back a computer printout of all the Timothy McAULIFFEs born in the area within a certain time frame, as well as all the baptisms and marriages of the same name, with the names of their townlands. I would recommend them.

I've used a couple of the heritages centers in Ireland with mixed results. Here is something to consider. Each county has/have a centre. They used the church registers for their database by putting the data from the registers into the computer. However, the people they used to do this were not trained genealogists, nor did they have any experience and/or training with reading the old handwriting, so that means, what info you get from them is not always correct, especially when they say they can't find someone. Because the name could have been misinterpreted and put in the computer with an incorrect surname. Any of us who have done census transcription know how hard it is to read the old handwriting and if the pages are dark or in bad condition, the job becomes even more difficult.

So, my recommendation, Mike, is this. Don't just look for one name. If you can get other siblings, it would help. I have two experiences. While my ggrandfather and his sister's death certificates say both were born in County Tipperary, I could find her baptism but not his. Later, I did find a descendant of another sibling who is buried in the O'Connor plot at St Josephs so I am sure this family in Tipperary RC parish is mine, and evidently my ggrandfather's name was put in the computer with a different last name. Now, since they are from the Emly & Cashel Diocese, there is no way to look at the film because the bishop won't allow it, but that is what I would do, if I could.

My other quandry is my Flynn family. I have my ggrandmother and four siblings. One family says they were from County Leitrim and one says County Leix. So, I commissioned both county heritage centres. Co Leix came back negative but there are many RC parishes among the missing.

County Leitrim found four siblings but not Hugh. They found Mary, Bridget, James and Anne all born about the same as our census records.

I am not convinced this is our family because almost every Irish family had a Mary, Bridget, James and Anne but very few had Hugh. I now have that film at my LDS Family History Library. It is in horrible condition, and first look shows that the years around Hugh's birth are missing! I am still going to search the film page by page and see what I find.

So, is the saga of doing research in Ireland.

Here is a website that is now putting all the counties together in one data base so eventually, it will get easier:

http://www.irishgenealogy.ie/frame_1024.cfm

Again, remember they are working with the same databases I mentioned above.

Hello,

I am researching information on Mary (Feehan) who was the eldest child of my Great Uncle Patrick Feehan who lived in Troy, NY from 1917 to 1934.

Mary was born in 1919 and was married three times. Her first husband was Walter D. Hoffman, her second husband was Paul Bennett and when she married the third time, to Roland Therrien, she moved to the New England Area and that is the last bit of information I have on her.

In 1930, Mary "Mae" was 10 years old and the Feehan family lived on Seventh Avenue in Troy. Mary's siblings were Regina, Thomas and Timothy.

I was hoping that there may still be a friend, or relative, of Mary's who might still live in the Troy area who may have been in contact with her over the years.

Any information, or suggestions, would truly be appreciated. Thank you.

Regards,
Trudy (Fean) Smith

Subject: Re: [TIGS] Feehan, Mary - Troy, NY

Hi Trudy!

I'm Jim Denny, originally from Buffalo, NY. My great-grandfather, James Denny, (Dennehy) lived at 2715/17 Fifth Avenue, Troy from the 1850s to 1912. He was born in 1828, baptized in Killenaule Parish, Co. Tipperary. Now to Chicago. My wife and I raised our five children in Chicago. The first archbishop of Chicago (1880-1903) was Patrick Augustine Feehan, born 1829 in Killenaule, Co. Tipperary. Maybe your great-uncle was named after the Archbishop.

If you are interested, a biography was written in the early 1920s on Archbishop Feehan.

By the way, my second cousin (once removed) is Marilyn Mahoney, who uses TIGS.

Have a good day!

Jim

Hello,

I am researching information on Mary (Feehan) who was the eldest child of my Great Uncle Patrick Feehan who lived in Troy, NY from 1917 to 1934. Mary was born in 1919 and was married three times. Her first husband was Walter D. Hoffman, her second husband was Paul Bennett and when she married the third time, to Roland Therrien, she moved to the New England Area and that is the last bit of information I have on her.

In 1930, Mary "Mae" was 10 years old and the Feehan family lived on Seventh Avenue in Troy. Mary's siblings were Regina, Thomas and Timothy. I was hoping that there may still be a friend, or relative, of Mary's who might still live in the Troy area who may have been in contact with her over the years.

Any information, or suggestions, would truly be appreciated. Thank you.

Regards,
Trudy (Feen) Smith

Thanks also Jim for the information on your family tree. Gr. Uncle Patrick Feehan lived at 2141 Seventh Ave. in Troy. He worked for the railroad.

Short story about "Herself"

I have been a member of TIGS from the very first meeting in October 2003 after having attended a dinner with list members in September 2003 where the idea of forming the group was introduced.

At the first meeting in October 2003 I participated in the draft of the Mission Statement and later participated in the writing of the charter. I helped to arrange, attended and kept notes of every meeting from October 2003 until the first elected secretary took office in May of 2005. Perhaps not quite by "Roberts Rules", but my record of those first meetings are informative and entertaining and show a progression of the group to where we are today. My professional affiliations are, due to time restraints, all linked to my occupation in the Insurance Industry and unfortunately too boring to list here. I do however belong to many mailing lists where my knowledge of genealogy, history, etc. expands each day. I have participated in many of the TIGS projects as well as assisting with the transcription for the ACGS of St.

Mary's records.

Born and raised in Troy in a large Irish family, my father was a tavern owner and many an Irish Toast was raised in my presence. My interest in family and my Irish heritage began at a very early age. I am 3rd generation American on both my paternal and maternal sides with all of my ancestors arriving in Troy, living in Troy and dying in Troy. I am fortunate to have all of them right here in this fine city. My ancestors are all Irish with a touch of Scottish and French.

My Irish claims to fame are the following; Cooney, Malone, McIntyre, McGregor (Scotch-Irish), Hull, McDonough, Masterson, Callagy, Martin, Smith, Fitzpatrick, etc.

I look forward to continuing with TIGS and it's constant growth through projects, sharing of ideas and information and camaraderie of its members.

The May meeting of TIGS will take place this coming Thursday, May 18th, at Holmes and Watson on Broadway in Troy. Please see the website for further details.
Any agenda items should be sent to Donna Vaughn Now that the snow has ended, granted the rain is started BUT we are hoping for an increase in attendance. The meeting place is local, the food great and the company even better.....why not bring a friend and convert them to the world of genealogy. I know the group could use some more local volunteers for the projects Bill has in place.

Categories: GENEALOGY TIGS

Please, Take the time, and show your support for the extremely dedicated TIGS members who have accepted nominations as officers for TIGS, and vote for them.

And here is an interesting tidbit of statistics I saw in a book I was reading.

"YOU have two parents, four grandparents, eight great grandparents, sixteen great great grandparents, and so on. So Presuming a conservative three generations per century, thirty generations ago, around the year AD 1000, you should have had 1,073,741,824 ancestors- more than a billion. This is several times the population of the planet in AD 1000. What is the explanation? It's simple. The calculation assumes that none of the couples over those thirty generations was in any way related. If you marry your first cousin, your children will only have six great grandparents, not eight; twelve great great grandparents, not sixteen; and so on. At a stroke you will have removed more than 600 million of those notional ancestors a thousand years ago, and thats still presuming none of the other generations were related. IN fact the chances are that almost all your ancestors were related to each other in some way. IN settled rural societies everyone was at least a fourth or fifth cousin. The fact is, we're all more related than we realise. As you walk down a Dublin street every stranger you see has many ancestors in common with you, however far back it may be."

from "Irish Ancestors: A Pocket Guide to your Family History" by John Grenham

Ireland is a pretty small island.

"Connolly offered to speak at a meeting in Troy before he left for Ireland, since he wanted to visit his cousins again. On Dec 19th, he was the principle speaker at a meeting there, his subject the history of the "Political and Economic Situation." He spent Christmas 1902 with the Humes, his relatives."

p47

"Margaret Hume, in Troy, NY, had forwarded passage money to Connolly. She wrote: "I was so glad to hear you paid a visit to my mother and father...Now dear James..so long as you are determined to come here and bring your family and make this your home, I will do all in my power to assist you...the time is short and it would be a bad time to wait until October; the sooner you get here the better. I will send you a draft for your fare so you will have it by the first of August, so you can make your arrangements.

In view of the accidental death of Connolly's eldest daughter, Mona, after her fathers departure, many unhappy hours must have been spent by Connolly and his cousin in retrospect, on the situation which made the next paragraph necessary: " I am sorry you said anything to Mona about coming with you for I think we cannot manage that at present and she will be disappointed. Trudy - since you were kind enough to tell me about your family in more detail than I did, let me expand on the Troy Dennys. First, from baptismal records, Killenaule Parish, Co. Tipperary, I found that the original family surname is Dennehy. Dennehy is a prevalent name only in Cos. Cork and Kerry. Since James and his family lived approx. 25 miles from the Cork line, I guess his people moved to Co. Tipperary from Cork, especially since I can find no baptismal records in all of Co. Tipperary for his father, Diarmuid (Jeremiah). We were one of the tens of thousands of Irish families whose Irish surnames were force-changed by the English to "more English sounding names".

James married Catherine Shinnors (Cooleen Townland, Newport-Birdhill Parish, Co. Tipperary) in St. Peters Church, Troy on 17 May 1857. They had six children: Catherine, twins who died in infancy, Jeremiah, William (my grandfatherr) and John. Jeremiah was a fireman in Troy, engineer on the Steamer Eddy. His youngest daughter Margaret "Peg" Denny celebrated her 100th last Sept 29th in Troy. My grandfather married Jennie Parks, daughter of a Civil War hero. The Parks lived on Sixth Ave.

All seven of the Denny children immigrated to Troy from 1851-1862. Six arrived unmarried; the seventh, Johanna married Edmund Delahunty in Ireland. They came to the USA and had their name changed to Delahanty during the immigration process. My g-grandfather James was a blacksmith & farrier...but on the 1880 US Census, his occupation was saloon keeper. His younger brother Thomas, who ran a grocery store at 284 Ninth Avenue, was a policeman and later an alderman.

That's about it. Let me know if any names ring a bell.

I have a passion for my ancestors, Irish history and Irish traditions. I think the traditions that are carried from one generation to another is what gives you the connection to your past.

My Irish roots are from County Cavan and I am researching Donlan, Brady, Cummisky, Candlin, and Gaffigan.

Cheers,

Hello Carey:

Welcome to the TIGS list.

If you look at the RESOURCES section on the TIGS website there is a reference to Connors Genealogy. Check out this site as Pat Connors has a tremendous amount of information. For instance she has the 1880 and 1900 Troy census in a searchable format. Pat has also transcribed a lot of immigration records for Irish surnames in the Troy area. I am sure you will find some Gleason surnames there which may indicate some areas of Ireland.

By the way I have several Gleason's in my family line.

My grandfather Thomas McGrath, had a sister Bridget McGrath who married a John J. Gleason in Troy, New York. John was born in Ireland (no idea where) around March 1867 and died in Troy on March 9, 1939. His parents in Ireland were Michael and Anna Gleason.

My great grandfather Timothy O'Connor came from Nenagh, Tipperary, Ireland. His mother was a Catherine Gleason which is all I know about this Gleason branch.

Bill McGrath

His wife, Julia Gehrean, came to this country in 1863 and is buried near me in Stratford, CT.

I am also looking for information on Mary Millet Tracey, Rena's mother, and on Dennis and Bridget Tracey, the parents of Timothy, Mary Millet's husband.

Last summer Immaculate Conception and St. Patrick's churches let me examine their old records.

Hi Carey

Welcome to the list.

I have been researching the Denny family in Troy and some of the following information might be helpful to you.

Edmund Delehunty (Delehanty, Delahanty) married Judith Denny in Fethard, Tipperary on 4 May 1859. They had seven children - Catherine, Margaret, Mary, William, Johannah, Jeremiah and Ellen - and settled in Troy.

Walter Denny, Judith's brother, married Mary A. Cummings and they also settled in Troy with two children - Jeremiah and John.

I don't know what time frame you're looking for but the names appear to have some connection. If you think it might be helpful, I have extracts of some relevant names from the "Records of Deaths and Burials in Troy NY, Mt. Ida Cemetery" 1863-1867.

Jim Denny has also done research on this family and visited Fethard just last year.

Good luck

Marilyn Mahoney

Pat, I've heard a lot about you through Kay Brearton, a friend of mine, and through TIGS. I was checking through my old e-mails and came across some info about your family that made me think that you might be able to help me find some info on my great-grandfather. I am a former South Trojan. I was raised on Norton St., which is between Lincoln and Mann Ave. My maiden name was Reilly. I am trying to find where my great-grandfather is buried. He was born 1830 in Ireland and died in So. Troy on December 16, 1878. He married ELIZABETH CARDIFF Sept. 23, 1853 in St. Joseph's Church, So. Troy. They had 12 children. They are: Bridget, Elizabeth, Mary, Christine, Philip, Patrick, James (who was my grandfather), Sarah, Hugh, John, Richard and Michael. I know that ELIZABETH, Philip's wife, is buried in St. Joseph's Cemetery with her son Philip. She remarried after my great-grandfather's sudden death. She married a man by the name of MALONEY. St. Joseph's Church doesn't have any record of where her first husband. PHILIP RILEY/REILLY, was buried. I checked with St. Michael's Church and the secretary said that St. Michael's Church was opened just a couple of years before my great-grandfather's death and that he was listed as a member of the parish. She couldn't give me any more information as she said that the records were destroyed when St. Michael's had their fire. Any info that you might have on PHILIP RILEY/REILLY would be appreciated. Thank you very much. Doris (Reilly) Moak

This is my great grandfather who was baptised in the Tipperary RC Parish, County Tipperary.

James Connors, 82, for about 65 years a resident of the southern section of this city, died Saturday after a short illness. He was born in Ireland, but had come to this country as a youth. He was a resident of St. Michel's parish in the southern section for a number of years and was an attendant at St. Michael's Church. He is survived by a daughter, Mrs. S.A. Young of Princeton, N.J., and two sons, James T. Jr., and John F. Connors and a sister, Mrs. C. Keirnan of Albany. The funeral will be held from the home of John J. O'Neill, 43 Stowe Avenue, tomorrow morning at 9 o'clock, and later from St. Michael's Church where a requiem high mass will be sung. Friends may call at the home from 7 to 10 o'clock tonight. Burial will be in St. Joseph's Cemetery.

Have you looked for Philip Reilly in the burial films in the Troy Room at the Troy Public Library? If you are lucky enough to find an entry, it should tell the cemetery in which he was buried.

Hi Lynn, Thank you for the info. I did check on some old newspapers at the Troy Library. I found the articles about my great-grandfather's death, but there was nothing listed as far as where he was buried. I will check out the burial films that you mentioned. Also, I guess that I should check to see if I can obtain a certificate of death. Perhaps that will tell me where he is buried. Thanks again, Lynn. Doris

Hi Bill, Thank you for the info about St. Michael's Church records. I wondered how the records could have been destroyed in the fire as I believe that they were probably kept in the priest house and that was separate from the church. I did not read the article. While I have been cautioned that this site is for genealogical research and not chatter (in a very kind way), I have to put in my two cents worth here. I'll spin it to be a bit more research oriented by saying that three types of coping I mention by our immigrant ancestors and our tradition of holding close extended families have both been helpful and confusing in unraveling genealogy of my family. Like most of you who read this, my Irish ancestor's property was stolen from them. They were forced to "share crop" it for many years. Some were killed for teaching the children to read and speak "the language". Some of them came to the US in search of a better life before the famine. Several died due to the famine. Still more were shipped to Canada courtesy of Lord Palmerton who managed "their" property, and a "coffin ship". Several of those died enroute. Family quotes are that they barely had enough fabric left in their clothing to cover themselves. Of those that made it here there were 1. those that clung dearly to the old ways refusing to build a new life living only in the past and never able to cope with the horrors they had lived. Many of those "lived and died with the bottle" 2. Others to the opposite extreme refused to be associated with their past changed their names to be less Irish and moved on. Very difficult to find these. 3. In the middle were those that have always held dear their origin of Irish with took jobs in and around the iron furnaces in Southern Ohio and Kentucky. Drew their strength from each other and God. They worked as a family unit. This includes what some would call extended family. They sent money home and worked to bring others remaining over. Some also supported "political organizations" in the old country. They worked to become involved in politics here, and build strong Irish American communities. They learned the language in their new home. Not quite the same as the one they were forced to speak in "the old country." A mutated version to include expressions and words from the languages of others that had started over here. There are people from many different origins of decent whose stories are the same. We have become a great nation because we have interwoven. Holding with pride to our origin yet reaching for a better future. Becoming United. Now I have given my 2 cents worth or malarky whichever way you want to view it.

Doris, the death cert. would surely be a good idea. I don't have any certs. going back quite as far as yours, but the ones that I do have...late 1890s/early 1900s...all show the cemetery. Terry in Michigan

The lively discussion of immigration prompts me to ask if anyone has done research on how the famine Irish traveled to reach upstate NY, especially some of the less obvious routes. I believe my ancestor came to St. John, New Brunswick on a ship named Midas in 1847 and I have a record of his being employed in Washington County in 1853. I don't find him on any of the NY or Boston passenger lists so I wonder how he found his way to the upstate area. Someone suggested that people literally hiked. So I am interested in what anyone may have learned on the subject.

By the way, this man, John Nevins, went to court to declare his intent to become a citizen in 1858 with a brother or cousin and was naturalized in 1860 shortly before his marriage. He left a newborn at home to volunteer for the Army and was wounded by artillery fire in the slaughter at Fredericksburg and became part of the Invalid Corps, working in a military hospital in Washington DC. He never fully recovered from his wounds and died a few years after the war after a wild July 4th parade. Many, many Irish never it made off the battlefield.

Many came through Canada as passage was less expensive and disembarkment regulations weren't as strict. The Kinney side of my family ended up in Troy. The Hannans some remained in Canada, some migrated back and forth. Allegheny PA was also a rather big Irish area. It is Pittsburgh area.

Did any of your Hannan people wind up in New York City? I am descended from a Hannan family which had three children in the late 1850s and left them orphaned within a decade.

My ggpa Samuel's two older children were born in Pittsburgh. I have looked online for passenger info for the time he emigrated (1900 census says 1867, Sam was born in the famine years about 1847). Do you know of any resource that features Irish emigrating to Pittsburgh? Lois in AZ

Hi,

Since the discussion is on things pertinent to the famine, perhaps someone could point me in the right direction. I have a real brick-wall situation regarding my gggrandmother, Catherine Callinan (Callanan?) Bronk, who emigrated from Ireland in either 1847...during th famine...or 1844 (It's hard to make out the date on the 1920 US Census). She was born in 1836...and her father's name was Mortimer. She married by gggrandfather, Philip John Bronk, about 1853...and had 7 children (Elizabeth, Louise, Frances, John Mortimer, Edwin Serviss, Emma & Wilbert John). She died on 7 Aug 1923 at the age of 87...at Watervliet, NY. I would love to know where Catherine was born and raised in Ireland...so I could visit that area. The 1920 Census also shows that she was naturalized in 1869...but I have researched every organization (county, state & federal courts)I could think of which would have her naturalization documents...and no one knows of her.

Further research on the subject of naturalization revealed that most women during that time were naturalized automatically because of their marriage to an American. If that's the case, there wouldn't be a formal naturalization.

But then, why would the Census indicate a specific date? Perhaps I'm missing something. Any direction would be appreciated.

Thanks, Bill Bronk

Hi Stephanie,

The first time I see Charles J Fox is on the 1880 Census. He is living with his sister, Bridget Ryan, a widow on Water Street, in Troy. His age is listed as 32. Bridget has 4 children, the oldest being 9 yrs old from a previous marriage to a Murphy. The 1900 census has 1865 as Charles' year of immigration. I have no idea where he lived from 1865 to 1880.

I cannot find any information on Bridget after the 1880 census. No one in the descendents know where in Ireland they came from.

Christopher and Mary Fitzsimmons King and their daughter arrived in the States around 1853-1855. I have the 1855 NY census in North Greenbush with Christopher, age 35, Mary, age 30, Margaret, age 3, Christopher, age 1 and Mary, age 2/12 months. Christopher and Mary were born in NY. I cannot find Margaret in the 1870 census and assume she either married or died before the census. The other children- Christopher married Margaret Brearton 1/8/1882, Mary married Charles Fox 7/3/1881 and another daughter, Catherine married Thomas Hines. Christopher and Margaret's youngest daughter, Esther married Thomas Delaney. I do not know any King descendents to ask them if they have any information.

I haven't devoted much time to William C Myers. He was born in Troy, NY around 1850. His parents came from Ireland. He married Ellen or Helen McClernand. She was born in Glasgow, Scotland but her father, William McClernand was born in Ireland. I have an 1880 census for William.

I know that Catherine Larkin came from Seefin, Ireland in 1904. She married George Vaughan. I visited Seefin and found cousins named Murphy in Ireland.

Any help would be appreciated.

Thank you,
Kristine White

Bill,

Are you aware a Bronk family is mentioned in the book, History of the City of Watervliet (formerly Gibbonsville)? I have a copy of the book, if you need the information.

Hi Stephanie,

The first time I see Charles J Fox is on the 1880 Census. He is living with his sister, Bridget Ryan, a widow on Water Street, in Troy. His age is listed as 32. Bridget has 4 children, the oldest being 9 yrs old from a previous marriage to a Murphy. The 1900 census has 1865 as Charles' year of immigration. I have no idea where he lived from 1865 to 1880.

I cannot find any information on Bridget after the 1880 census. No one in the descendents know where in Ireland they came from.

Christopher and Mary Fitzsimmons King and their daughter arrived in the States around 1853-1855. I have the 1855 NY census in North Greenbush with Christopher, age 35, Mary, age 30, Margaret, age 3, Christopher, age 1 and Mary, age 2/12 months. Christopher and Mary were born in NY. I cannot find Margaret in the 1870 census and assume she either married or died before the census. The other children- Christopher married Margaret Brearton 1/8/1882, Mary married Charles Fox 7/3/1881 and another daughter, Catherine married Thomas Hines. Hi Jeanne,

I have compiled a database of burials from Oakwood and I think I sent it to Pat Connors for her webpage, I can look for it at my work pc , I have quite a few years with many names. Can you post it in with what you have.
Let me know and I will try to find it.

Bill,

Prior to the adoption of the 19th Amendment many women did not seek citizenship because they could not vote. There were exceptions in some states but not in the national elections.

Do you know when her husband was naturalized? Was he native born?

The census could be wrong. My wife and I have several examples in our families of incomprehensible errors including at least one child born before his father.

Jim,

Catherine's husband, Philip John Bronk, was born in Watervliet (West Troy).

I'm beginning to think you're right about the Census being wrong. But the info seemed to be so specific, I wanted to believe it. Oh well!

Thanks,

Bill Bronk

I've not been on this list long enough to recognize cemetery names, but wondering if any cemetery records have been transcribed for 1840-1850, and available online?

I'm looking for an Anthony Bannon who is on Troy 1840 census, then he disappears completely from sight. He is shown with some family, and I find who I think they are for a very short period of time after 1840, but since 1840 doesn't show family member's names, I'm not certain.

Hoping maybe a burial record would provide a clue.

Kevin contributed a huge database a year or so ago, you can find it here:

<http://www.connorsgenealogy.net/troy/OakwoodCemetery.htm>

If you go to my main Troy page, there are more cemetery transcriptions, including Loretta Nial, work of gravestones indicating foreign birth.

Categories: GENEALOGY TIGS

There certainly is a lot of confusing information on Catherine Bronk. The 1910 census of Watervliet says she was born in NY and parents born in NY. She's living with daughters Louise & Emma. Unfortunately the 1900 census (online thru Ancestry) has massive ink stains covering the Bronk family in Watervliet. I can see Catherine, Louise, Emma, & Wilbert, but most of the rest is obliterated. I tried looking on other online services but cannot find them, even though I tried many spellings. (Ancestry is the best way to look for alternate forms of names).

The 1880 census of Watervliet also says she was born in NY, parents born Ireland. So, it's difficult to know what information is accurate. I would suggest the following:

- * Get a copy of her death certificate, her obit, and gravestone information
- * Try the 1855 and 1865 state censuses, which list counties of birth if born in NY state.

These are not indexed...

Good luck,
Rebecca Rector

Rebecca,

I do have a copy of Catherine's death certificate...and it does show that she was born in Ireland. So the big question is where??? Thank you for the research you've performed...and the input you provided. I'm grateful.

It's nice to think that the US Census is "sacrosanct", but obviously...it isn't. Whether the census taker was being lazy or taking shortcuts...or the people being interviewed were not being truthful, we'll never know. But it sure makes things difficult for family historians.

Thanks again,

Bill Bronk

I do realize that we from South Troy use to refer to it as Stowe Hill, but it really is Stowe Ave. My friend Anne Conroy always corrects me when I say Stowe Hill.

You might also consider having a surname distribution study done if you know the surnames of both her parents from her death cert. This can sometimes substantially narrow the counties in Ireland where she could have been born David O'Brien Crowell & Moring

Bill, seeing as how the 1860 and 1870 censuses both say she was born in Ireland, and she probably gave that info herself, I would go after her father. She must have been quite young when she came over. Have you tried Castle Garden to see if you can locate her with the rest of her family? Her father's first name, Mortimer, isn't a common name. It would help if you knew if she had siblings. By the way, both those censuses would place her birth year c. 1833...a little earlier than what you have, but those dates are never written in stone!

Callanan (with the 'a' and not the 'i') can be found in Co. Galway, but probably other counties, too. David's suggestion is a good one.

The 1850 census is one that HeritageQuest (the census I can access from home) hasn't indexed, so I can't find the family without going through the census, page by page...a daunting task! If someone has Ancestry, they could try to locate Mortimer and family in the 1850 census. Probably not much info on that early census, but you never know. Of course, there's also the possibility that Mortimer didn't come to the States...that Catherine came over with other relatives. Good luck. Terry in Michigan

PS if you don't have the 1860 and 1870 census images, and would like them, let me know off-list and I'll download them for you.

I have a few questions:

Are NY state census available for 1845, 1885 and 1895?

Regarding death certificates, my assumption is they were not required in mid 1800s, would this be correct, if not, hopefully

For deaths occurring in the mid 1800s, would record and certifications have been required? My assumption being many deceased were simply buried with no record, would this be true, and if so, only hopeful source for identification would be church records?

Also, Bill writes about having a surname distribution 'done'. Would this be a request to a professional genealogist or another source? I found one site online that gave distribution numbers for the particular surname in each county (perhaps from Griffiths? I don't recall). Would this be the same, or are you referencing something different?

Subject: [TIGS] Mallow Heritage center- buyer feedback.

Categories: GENEALOGY TIGS

I went and spent the 60 (~\$84) euro on a search at the Mallow Heritage Center in Cork. From the various internet forums I have read I must say I think I got my moneys worth when compared to some other folks. I did however provide them with a specific town land and ages, with parents names. They gave me baptismal info on my Great grandmother born in Cork in 1867 and most (6) of her siblings. They then also gave me the same info for the father Thomas Mahoney- the siblings (5 of them) born to his parents- but not him. It also gave the town land of the parents of the newborns- which gave me 2 additional places to look. NO info was found for either marriages.

They said a search was carried out for Mahoney in the ONE town land in the 1901 and 1911 census and was "negative", but that would be for a spot of land about the size of my yard. I was disappointed they would not look through adjoining townlands or the whole parish. It must not be indexed like the birth records. I will have to order the LDS films for that. NO mention of any other records that they mention on their site- eg Tithe Applotment books, etc. I had already found the family in Griffith's and had told them where, so they did not mention that source either.

No mention of searching for the mothers names- which in both cases, GG and GGGgrandmother- I provided with last names- I guess that is on another dime.

However the report presentation, in MS word, was very awkward and bland. Spaced weird and hard to read. I would gladly forward the report to anyone who may wish to see how the information is presented, if interested.

As far as timeliness I would give them an 'A'. It took only about 2 weeks. Very gratifying to the genealogically neurotic. All in all, I would do it again.

Has anyone used the Roscommon (Roscommon Roots) or Westmeath (Du Ni Si ?) Heritage centers? From anyone's experience do they seem to offer the same year ranges for records as are found in the LDS film catalogs for various Catholic church registers? I guess I am asking if it is not listed in the LDS film catalog does it not exist for research in Ireland?

Best Regards, Mike

Subject: [TIGS] working "backwards" in Ireland to find present relations ??

Categories: GENEALOGY TIGS

My GGgrandfather's death certificate in 1902 in Watervliet said in the category "How long a resident here" , 4 weeks, and in the Special Information only for Hospitals, Institutions, Transients, or Recent Residents: Former or Usual Residence : Ireland, How long at Place of Death: 28 days. Family story had said that he and his wife had gone back and forth to Cork while his children stayed here. He had immigrated with most of his kids in 1890 and was a widower in Watervliet in the 1900 census. I thought they (Mallow Researchers) might find him in the 1901 census in Carrigtohill, Co. Cork. Or at least some close family members. I still hope to find them in the LDS films.

Using people found in the 1901 Irish census has anyone been able to work backwards (compared to how this normally works) to find present relations in Ireland through the General Register Office and its birth indexes? Or otherwise? Just curious. Thanks for the help. Mike

Sharon, this site lists what's available at the NY State Library. I don't know if there were other censuses that the Library doesn't have on film. Maybe another Lister might be more familiar with this. Terry in Michigan

Mike,

To answer your question--no, I have never (YET) found any living relatives in Ireland by any means.

But I am curious as to the form/source of the information that you mentioned: Special Information only for Hospitals, Institutions, Transients, or Recent Residents: Former or Usual Residence: How long at Place of Death, etc.

We have a great uncle,WILLIAM MARTIN REYNOLDS, who died in Colonie about the same time as your great grandfather, and although we have his death certificate, and cemetery papers to show that he is buried in St. Mary's,Troy, that's IT !! We have yet to find an obituary of any sort, nor a death notice in the papers. He was 25 and is reported to have died of heart trouble.

The family lived in Green Island when they first came to the U. S., in 1882.

In the late 1890's, they moved to what was called CRANDALL LANE, off the Cohoes Rd. I think Crandall La. must have been what is now Elm St., as Crandall La. is not in the Street Listings section at the same time that Elm St.

"appears" in the city directory , and names formerly on Crandall La. are then on Elm St. So the family lived "in the area" where Colonie (Maple Wood), Watervliet and Green Island all converge .

What newspapers covering the above area would most likely have had an item about this death?

Family reports that William was a railroad engineer/mechanic. Where could we find info on that ?

Information that we have came from our aunts, who heard it from their father (my grandfather, William's brother), who died in 1946. None of us 25 grandchildren knew our grandfather, or any of his family, as they were all dead long before we were born.

It seems that our grandfather, JAMES FRANCIS REYNOLDS, was the 1st child in his family to be born in the U. S. It is his family that we are researching. This is a bit of a ramble, I know. It's a rainy day, and my sister, Glenda, and I are in the midst of preparation for our trip to Ireland next week. We will be able to see where our family lived before their emigration, be it house, hovel or piece of ground !! Exciting, but emotional stuff.

It was a section of the NYS death certificate on the lower right corner, just above place of burial or removal, etc. It seems as if I've seen a handful of different formats for NYS death certificates. Mike

Sorry to say that there's no mention of where she came from...on her burial stone. Unfortunately, I don't know her mother's maiden name. Thanks for the suggestions.

Thank you, Mike. I had figured as much as a death certificate we have from Albany City includes such info; not so with those from Colonie, at least at the particular time.

Mike's answer to Sheila suggests that this may be a good occasion to continue a discussion of vital records certificates.

The best source is the NYS Dept of Health. I've been told that, although vital records events are registered in the locality -- village, city -- the first copy was routinely sent to the state, and a copy was transcribed in the local books. [first chance for a clerical error].

Although it seems quicker to get a copy from the municipality, you should know that clerks are allowed, or even encouraged, to provide for your \$22 a modern form with information typed on it. [second chance for a clerical error]. In addition, the modern forms do not even include all the fields that are on the original.

It's a little more complicated to order from the state. Don't just write them a letter. Going through the right procedures will get you a photocopy in a couple of weeks, and then you'll have all the information that was available.

Hello Nancy,

I have been told that because my Great grand mother (Mary Elizabeth Margaret O'Sullivan/Sullivan - father Hugh) was born 04.07.1860 (Troy, Rensselaer Co.) that I cannot access any information or copies - they do not go back that far. Is this correct? What would be the address or Email for the NYS Dept of Health. Many thanks,

Anne, Montreal

Mike, you sound like a pro!
Great review of their work. I had some work done at the County Armagh centre and I give names and townland and they came back with a different last name for the mother! When I wrote back, no answer. Been almost a year now and I write to them every month, no answers. Hopefully, I'll get there in September and give them a piece of my mind in person.

Hello, Mike!

I would like to see what they provided for your money. After speaking highly of my in person purchase about three years ago, I got sticker shock when I went to the South Mayo Research Centre web site yesterday. What cost me €40 then, looks like it might cost me hundreds now, which is not in this retiree's budget. In Mayo two research centres (South and North) have apparently been combined into a single commercial venture headed by the former (present) Prime Minister Bertie Ahearn.

You mentioned FHL films. As you may know, there is a multi-step process of searching an index based on registration districts for a possible event, selecting, ordering (unless in Salt Lake) and then searching the films. I have been faked out and frustrated with this process even when in Salt Lake. As to the index step, local Family History Centers may have Irish indexes as mine does in my small CA beach community.

To Troy area listers, is there a center with a good Irish collection?

They then also gave me the same info for the father Thomas Mahoney- the siblings (5 of them) born to his parents- but not him. It also gave the town land of the parents of the newborns- which gave me 2 additional places to look. NO info was found for either marriages.

From anyone's experience do they seem to offer the same year ranges for records as are found
in the LDS film catalogs for various Catholic church registers? I guess I am asking if it is
not listed in the LDS film catalog does it not exist for research in Ireland?

Good question, Mike. I think it is difficult for most of us because we don't know what county, let alone what town(land) our ancestors came from plus since the census is not indexed, yet, it makes it almost impossible to start with them. Hopefully, now that Ancestry has completed the UK censuses, they will get to Ireland. Since the civil registration records are indexed, they would be the logical place to start when you don't know where they originated.

Hi, again Mike!

My search for my father's Irish born parents and their families in Galway and Mayo was very successful using LDS data as a start.

Between the 1828-1840 tithe records and the 1901 and 1911 census, I was able to find respective family farms and sheep fields using land records. When I made my first and only visit to Ireland in search of my father's dad's grave [he "disappeared" during the depression], I dropped in on an 85-year old namesake whom I knew was not related (at least after 1828). He graciously took me to the local cemetery.

After a thorough but unsuccessful search of headstones, he suggested I talk to the caretaker. A few minutes into the conversation she paused and said "You and my husband are cousins!" My grandfather's sister never left the farm and left behind two families of descendents, most of whom I met that weekend! My kind namesake knew of the relation but didn't want to have to tell me some of the tragic family history, which my cousins did.

I hear from friends that people in Ireland except visits from people like us!

ps I've even had the municipality tell me after submitting a check and form with name and date AND the NYS index number that I found in the state index that the municipality did not have a record of it, even though it was in the state index FOR THAT CITY. That was irritating. I'd say Nancy is right, the state photocopy of the original is the way to go.

Mike's answer to Sheila suggests that this may be a good occasion to continue a discussion of vital records certificates.

The best source is the NYS Dept of Health. I've been told that, although vital records events are registered in the locality -- village, city -- the first copy was routinely sent to the state, and a copy was transcribed in the local books. [first chance for a clerical error].

Although it seems quicker to get a copy from the municipality, you should know that clerks are allowed, or even encouraged, to provide for your \$22 a modern form with information typed on it. [second chance for a clerical error]. In addition, the modern forms do not even include all the fields that are on the original.

It's a little more complicated to order from the state. Don't just write them a letter. Going through the right procedures will get you a photocopy in a couple of weeks, and then you'll have all the information that was available.

Hello, Mike,

If you are doing research in the NYS Archives or Library and you don't care to drive out to 800 North Pearl St., then make use of the drop box in the NYS Archives reading room, on the 11th floor of the Cultural Education Center, also known as the NYS Museum building.

Dear Nancy, You said "going through the right procedures will get you a photo..." I live in Colorado and need some vitals to fill up the holes in my Irish NY family's history. If you have the time, could you tell those of us who are far from NY, what those right procedures are? I have never asked for state records before. Donna

Categories: GENEALOGY TIGS

Hello, Donna,

I didn't mean to be cryptic about obtaining NYS Dept of Health (DOH) vital records. I'll expound on my routine.

You'll want to know that the NYS DOH records reporting plan began in 1880. The indexes are public record and may be read by anyone. Anyone may order certificates indexed there.

Birth records are available up to 75 years ago, marriages and deaths up to 50 years ago.

I go to the NYS Archives Reading Room, on the 11th floor of the NYS Cultural Education Center, aka the Museum Building. That's one of the four locations where the indexes may be read.

The first time you go there, have your driver's license or passport or some other picture id. You'll have to register the first time and the first time every year.

You'll sign in and a clerk will give you a key to a free locker. You may bring in loose papers and a computer, if you like. You may borrow a #2 pencil, the only writing implement you're allowed to use under archives rules.

You'll sign up to use a microfiche reader. Rarely have I seen anyone not being able to get a reader.

The indexes are in boxes arranged this way:

- + Type of record and range of years are written on the boxes.
- + Year
- + Surnames -- be ready with alternative spellings, as well as soundex codes.

Write down any possibly correct listings with name, place and date and the all-important NYS registration number.

So, you don't have to have all that information. After all, that's what you're trying to find out. Perhaps that's what you want to learn, and then you can check newspaper obituaries based on the date and place.

When you decide whether and which to order, complete the required form, available on a desk. Write a check for \$22 for each record ordered and stick in an envelope.

Stick the envelope in a dropbox in the reading room. It's taken right to the DOH office and goes into a priority stack. You'll probably get your order in a couple of weeks.

I've been told that even having the information and ordering by mail does not give quick results, perhaps because your order doesn't get into the priority stack, which is just where we want to be.

If you use the information to order from the municipality in which the event occurred, which is the way vital records are reported in NYS, you still may not get a copy of the original. The crucial NYS registration number does not refer to local registrations.

If there's been a local misadventure, like the legendary fire in the courthouse, the original may exist in the NYS DOH files.

If you can't get to Albany, ask the NYS Archives for names from a referral list of local researchers who have taken the archives' training. You may expect to pay for their research time (and their knowledge of the state) and \$22 for each record ordered.

Combing through the indexes may well result in information about siblings of your target individual, which can only enrich your knowledge.

I am expecting relatives from Ireland in Troy this Saturday. Working from a will that I found in my mom's paperwork one of my cousins were able to go over and the local priest located them. He went back again and they threw a mini family reunion for them in Banagher, Offlay Ireland. Although I have not met them, I will this next weekend. Very excited.....will show them some of Troy.

I came across this headstone yesterday in Oakwood Cemetery, Troy, NY: (Section P) (Jeanne, could you please add to our database)

(Entire headstone)

1858-1894 James P. DEAN
1858-1934 Wife, Charlotte ATKINSON
1885-1889 Winnie
1887-1889 Jane
1888-1942 William J. DRISCOLL
1888-1947 Ruth E. DEAN

My Driscoll's are in Green Island and Cohoes, but I copied this one in case it is helpful to someone else.
