My great grandfather's sister Jane L. McGrath graduated from Columbia. Could you please furnish me with the particulars?

It will be very much appreciated.

Hi Joyce,

Tom Schenk here in Yacolt, WA. I see you're interested in a family Quinn, in Troy, and I, also, have been searching for Quinns in the Troy area in the same time frame. My GGgrandmother was Bridget Quinn nee O'Neill. She was married, I believe, to James Quinn. They had a son, Peter, born at "The Nail Factory" in Troy in February, 1944. James died in September, 1844. My GGgrandmother married my GGgrandfather, Francis Kane, in NYC in July 1847.

Peter Quinn went on to join the Union Army from Illinois and was captured in or around Oct/Nov 1863. He died of scurvy at Andersonville Prison in Georgia in Nov 1864 and his marker is #10531. This is FYI in case you determine James Quinn is related to the family Quinns for which you are searching.

Please feel free to contact me at [yacolttom@centurytel.net](mailto:yacolttom@centurytel.net) directly, or, for anyone else who may have information about Quinn or O'Neill in the Troy area.

Thanks and Best Regards,

Tom Schenk  
Yacolt, WA

There are probably 30 to 50 Sullivans.....I don't have my scanner connected otherwise I'd scan in the pages for you....There is a one Eugene Shaw Sullivan Madison, Wisconsin and there is one Michael Jerome Sullivan - 1893 from NYC.....do either of these sound familiar?

If I can get my scanner connected this weekend I'll scan in the pages.

Hi, Mimi

Tomorrow I will have copies of Coffey family lineage for you as well as the section from a travel diary James V. Coffey kept about his trip to Ireland in 1912. He and his wife visited Nenagh and Birdhill and stayed with Hartigan relatives while there. I'd like to mail hard copy to you since I don't have a scanner, and I'd have to retype all the pages to send to the site. I'm in the midst of preparations including Christmas shopping for my journey to Australia next week, so time is short and getting shorter!

Please give me a call at 274-8390 if you want to give me an address where I can mail the information. Had a problem getting this sent because of a mixup with another slightly different e mail address I never wanted on Outlook Express.

Jean

Hello Pam:

Thanks for your email.

We are in the final stages of the marriage project. I have sent records 5001 to 9000 to Jeanne and only have to finalize file 9001 to 10000. Jeanne then has to break the files down by alphabet distribution. Hopefully data can be up on website this month.

Two problems with this data base. Original poster of records in the index did not use marriage date but used a filing date. Also half of the paper documents at this point are missing so unless they turn up you will not be able to send for photocopies for many of the records.

As to new work, Cathy and I leave for Florida mid January to Mid March. Perhaps some of the other local TIGS people can start on Vol. 3 while I am gone. We will see as I will raise this at a meeting in early January of the officers.

Was at my brother Jack's on Thanksgiving to visit and he remember your father as being a fireman with him.

Regards,

Bill

It is she. She taught at the South Dakota School of Mines, then in Texas, Wisconsin, and finally at the Pennsylvania Normal School at Indiana PA, now Indiana University of Pennsylvania.

Thanks so much!

I just wanted to let you all know that I've been off list this week. I downloaded Internet Explorer 7, and my computer crashed shortly thereafter. (My computer is less than 2 years old.) I don't know if there is a connection, but I would advise carefully looking into the status of this fairly new program before considering updating to it. If anyone is more familiar with this, please enlighten me.

Thanks,  
Donna

Donna, and all...Microsoft has had a lot of problems with 7.0. On the advice of my son, I uninstalled it and went back to 6.0 until they can work all the bugs out. Terry in Michigan

Hi, Mimi...

I made a copy of James V. Coffey's notes for you. I've also copied some of the Coffey lineage from the earliest date in Ireland as well. I'd like to send this material to you in hard copy form, if possible. I could post all of it on the site, but since I don't have a scanner, that would mean re-typing a number of pages. Just now I'm caught up in preparations for the Australia trip next week, so you can imagine what that entails as it included finding space for Christmas presents and items my daughter would like that are not available there. Would you give me a call this evening after 9:00, if possible?

I'm at 274-8390. Jean

I have had a similar problem, but now it will not let me put 6 back on. Two of my work sites have advised about using it, because of problems. The all mighty Microsoft will not even talk to you about the problems unless you pay them for it.

**Categories:** GENEALOGY TIGS

Hi all!

I am trying to track down a cemetery where 2 of my relatives should be buried. They lived & died in Green Island. I imagine the cemetery should be located fairly close but I haven't found it on Google.

Edgar Gardner d 25 Apr 1875. His wife Susan S. (Brownell) Gardner d 26 Oct 1893. From newspaper clippings, Edgar was buried at "Sandy Hill" and Susan was buried at "Sand Hill." Can anyone help to identify the cemetery, whether it has changed its name, or has been closed. Many thanks for any help! Donna W.

I have found that if you say the name with a brough then try to spell it the way it sounds you may have better luck. Many of my Irish family were spelled wrong in the census, the census spelled the name as it sounded. It may help. eg Fleming ending up being flimming and Keleher ended up being Keeler Good Luck ==== NY-TROY-IRISH-GENSOC Mailing List ====

There is a rootsweb site on Jefferson county (which was part of Albany county) on this site:

<http://www.rootsweb.com/~nyjeffer/cemdex.htm>

with the cemetery names you are looking for Sand Hill (Sandy Hill) in Wilna Lois

Attention Donna Wilson:

I do not believe there were ever any cemeteries in Green Island (Albany Co.). Do you have the entire obit scanned or transcribed? If you send it to me off list, I will try to help you figure out where they might be buried. This Sand or Sandy Hill intrigues me, as I've done a lot of research on Green Island and have some books, etc., on its history--but have never heard of a cemetery there. My people are from there and go back at least to the 1850's in that village. I do know some Gardner's there, too.

Following the link in a recent posting takes one to the Jefferson County genweb site and lists the above burial grounds as well as the person to contact regarding them.

Jefferson County is a long way from Green Island.

Just noticed the trailers (below) on recent postings.

Donna et al.,

I had similar problems with ver. 7 and reloaded ver.6, which was giving me problems such as frequent errors requiring a restart, until I bought a new computer a month or so ago. Now, no problem with Ver. 7.

The village of Hudson Falls, NY, in Washington Co., was formerly called Sandy Hill (before 1910). The cemetery there is Baker Cemetery (goes back to 1800). Actually, this town was called Baker's Falls prior to 1810, then Sandy Hill until 1910, and now it's Hudson Falls.

Could it be that your Gardner line that lived in Green Island, but were originally from Sandy Hill/Hudson Falls, so they were returned there for burial??

I agree with Lynn, Mozilla Firefox has fewer bugs and is a lot safer to use. Its my browser of choice. However I keep IE6 on the machine for those instances when Firefox won't open a website because it considers it too risky.  
If your interested go to: <http://www.mozilla.com/en-US/firefox/> for the free download. Jeanne

I wish we had this thread on thursday instead of today as we just switched Friday night. The only problem so far was that it set up Yahoo Mail when it was first installed even though we requested our current settings which was Microsoft Outlook Express. Once I figured out how to go in and eliminate the Yahoo and AOL toolbars it reverted to Outlook Express and we haven't had any problems since. But it's early yet.

Maybe it will be OK with your system, Rick. Mine is Windows XP. I don't know if it's a conflict with that, or what.

Lois,

I also have been noticing my email address appearing at the end of messages with directions for unsubscribing. It seems to be something Rootsweb has added recently... it appears on postings to other Rootsweb lists as well.

It appears that, as a recipient of messages from a particular list, one will get the "unsubscribe message" for their own email address automatically. But, if the poster has quoted many previous messages (as Jeanne did), the recipient will see each individual's email address too.

Maybe Lizette, as List Administrator for the TIGS list, knows more about this.

Please delete the unnecessary material from your forwards and replies to the list. It took me a full minute to delete the repeats on this message, which included three full days of posting and repeats. If this continues people will unsubscribe from the list and they may just be the very people that have the answer to your problem. As it is I scroll hurriedly through all the material looking for something in black and may miss a "real" new question that I could help with. **Categories:** GENEALOGY TIGS

Hi Listers,

Many listers have been wondering why their email address shows up on the posting footers. This is a new function for Rootsweb to give the recipient the option to unsubscribe.

Old Footer:

To unsubscribe from the list, please send an email to [NY-TROY-IRISH-GENSOC-request@rootsweb.com](mailto:NY-TROY-IRISH-GENSOC-request@rootsweb.com) with the word 'unsubscribe' without the quotes in the subject and the body of the message

New Footer:

To unsubscribe [lstrait94@earthlink.net](mailto:lstrait94@earthlink.net) from the list, please send an email to [NY-TROY-IRISH-GENSOC-request@rootsweb.com](mailto:NY-TROY-IRISH-GENSOC-request@rootsweb.com) with the word 'unsubscribe' without the quotes in the subject and the body of the message

The recipient of the list posting will have their email address inserted into the new footer.

If you do not erase previous postings when responding to the email, it will carry the footers to the next posting. It will make the posting quite messy. However, some postings that had previous emails deleted still had multiple footers and I need to check into that and will get back to the list soon.

When replying to a post, please remember to delete previous responses that do not pertain to your reply. This will help to eliminate the confusion of the response/message and footer. Also, the list is archived and when searching through the archives, it will make it that much easier to find something.

The list appreciate everyone's effort and attention on the matter. If you still have any question regarding this matter, please do not hesitate to let me know.

Lizette

Pat,

Thanks for the input on Annie O'Connor's maiden name of Rainey. I wasn't sure how the families wre connected but this would explain it. Do you know anyone's name in Annie's family? I have about 200 Rainey's listed from Troy and I can't identify any as Annie. There are several Anna's but I can't match one to the time perioed needed for this Annie Rainey O'Connor.

Thanks for any further info.

Take care an thanks for all your efforts. Your site has been a genuine goldmine for me.

Hi Mike,  
If you check on the Troy section of my websute, under Church Records, I have posted the records I copied at St. Josephs. If you look at the godparents for the Annie Rainey/Jeremiah O'Connor children, you will see a number of Raineys, I would assume they were related in some fashion to Annie.

What a challenge trying to get a location for a meeting in the middle of the Christmas Season.

The December meeting will be held on Thursday 12/14 at 6:30 at the Red Front Restaurant in Troy. We had agreed at the last meeting to the second Thursday of the month because of the holidays.

The Red Front serves wonderful Italian food, pizzas and pub food. They are located at 71 Division Street in South Troy between 3rd and 4th Street.

Because it is the holidays they are asking for a head count in advance.

PLEASE respond to the list as to whether or not you will be attending. They have several seating options; a private room for a large party or a quiet corner for a smaller group. I need to let them know the count so they can determine where to seat us.

Thanks

Kris

Hello, friends,

I'm looking for more information about my husband's grandfather, Michael Curran, who last lived at 456 First St., Troy.

Born in Galway, Ireland, he immigrated in 1888 and became a citizen in 1893, according to the 1920 census.

Where would a record of his citizenship be held? I'm assuming he was in Troy at that time because his son was born in June 1893 in Troy. The year before he was in New York City, where he and Mary Nolan were married in July 1892 in St. Patrick's Cathedral. Their children were born in Troy, where Michael died in March 1947.

Thanks for any direction.

The Red Front sounds GREAT! I will be there.

That chart from Pat Connors is great; I missed that one before!

Also, in doing my own genealogy, I came across this info for Ward 2 (with the help of the Troy Library and Renss Co Historical Soc.):

Ward 2 includes the area of River St. near #133 River, and Congress St. near #15 Congress.

Received your packet of notes on the trip Judge Coffey took in 1912 to Ireland. Thanks so much. Curiously, on our last trip to Ireland, we met and were friendly with a very well to do Irish farmer, and his wife...the name was JAMES WALSH. He told us that this quite substantial farm located in Tipperary had been in his family since before the days of Cromwell. He and his wife had taken a tour of Ireland as a honeymoon present over fifty years before, and were repeating this tour with our Collette group. I wish that I had known more about the Walsh family from Troy when we met him.

If your information has changed or I made a mistake, please submit a new form and put 'change' in the field where you want the change. Also, don't forget to update your email address if it has changed.
